

[Projectes](#)**Projectes: Storytelling in 2 ESO**

Enviada per jcamprod el 27/Abr/2017 - 09:14

We all have a favourite storybook from our childhood. Some bedtime stories will be stuck in our memories for years. Most children get excited when it's reading time, grabbing their teddy bear, jumping into bed and listening to or reading stories that take them to the world of dreams, fantasy, adventures, heroes, and monsters. Stories filled with illustrations that widen their imagination.

This was the objective of storytelling in 2 ESO, to take students back to the time when they enjoyed stories and give them the opportunity to become writers, actors and stage designers for one day. The students of 2SC and 2SD shared stories of their own in English. Most stories were totally original. Students created the plot, made up the characters and the setting and represented them in class. It was a rewarding experience for everyone. We had great fun and a good laugh. Congratulations!
