Articles: Bits of science

Enviada per jmarin el 19/Jun/2007 - 22:18

Bits of Science is a credit where some students from 4 ESO have been working on the Climate Change.

They heave created a website summarizing the most important aspects of this phenomenon. They have divided the class in six groups, and every group has worked on a different subject such as The Greenhouse Effect, the IPCC, differences between Climate and Weather...

We hope you enjoy it!
